Mission for Elimination of Poverty in Municipal Areas (MEPMA) is a registered society set-up Under MA&UD Dept in the State to address all the poverty issues relating to Urban poor in all ULBs. The Mission has taken up the task of organizing the poor and mobilize them into Community Based Organizations (C.B.Os) and nurture them, so that they become strong, self-reliant and self-managed institutions. Institutions like MEPMA is playing a catalytic role in securing the basic services and improving the livelihood of poor families. As part of its various activities, MEPMA has started a series of training programmes aimed at developing a strong social capital base.

In this context MEPMA, in addition to promoting Self-Help Groups in Urban areas, also intends to facilitate the programmes that benefit the families of the urban poor in areas like Health, Nutrition and Sanitation.

To help prevent detrimental nutrient deficiencies and diet-related chronic diseases it is proposed to establish healthy eating behavior in childhood and maintain during adolescence. Proper eating habits play a crucial role in shaping food choices, diet quality and weight status. And schools can play a powerful role in children's eating behavior by making food available to children. This can be achieved through establishment of *food store/shop* in the premises of the school or closer to the school within the reach of children.

**In this context MEPMA needs training venue with cooking lab, technical support from Dept., of Home Science in nutrition. The training is proposed for a duration of 5 days of which three days under home science experts two days with FCI – Vizag where they will be imparted both theoretical and practical sessions.**
