

Examination cell annual report 2014-15

The College established an Examination Cell to take charge of the examination system in the college. The detailed syllabi, course outcomes, programme specific outcomes and programme outcomes are made available in the college website and college library. Orientation is given to the newly admitted batch of students and their parents regarding the system, process, methods and techniques of assessment and evaluation. The learning outcomes of all courses are also communicated to the students during the orientation programme. Institution notifies the faculty and students about course, syllabus updates evaluation process, examination rules and regulations etc. through college hand book. The examination schedule for the academic year prepared and displayed in web site and notice board.

Syllabus is regularly updated through Board of Studies and Academic Council. Major changes in syllabus have also been made in the following papers to meet stakeholder demands.

I and II Semester: Telugu, English (Elizabethan & Miltonic Age), Commerce (Structure Programming through 'C'), Economics (Indian Economy), Biotechnology (Molecular Biology I). IV Semester: Telugu, Economics (Economic Geography of India), Commerce (DBMS), Mathematics (Real Analysis-II), Zoology (Animal Diversity-IV, Evolution Zoogeography), Home Science (Computer Applications in H. Sc.-II, Life Span Development-I).

Examination Report: Mid semester examinations conducted for I, III & V semesters in the month of July/August and for II, IV & VI semesters in the month of December. End semester examinations conducted for I, III & V semesters in the month of October and for II, IV & VI semesters in the month of March. Nearly 238 question papers prepared with the help of paper setters from colleges of different states for end semester examinations and the number of papers valued were 15360 with the help of nearly 238 examiners from different colleges. Odd semester results declared within 24 days and even semester within 11 days. College implemented Degree Examination and result system (DEAR system) version 1.5.4. in the examination cell for the management of result processing. We received 31 applications for revaluation of End semester papers. Out of which marks changed for 13. There are 6 students involved in malpractice in this academic year.

Results: Results and statistics of results prepared and presented to Examination committee, Academic council and Governing body.

In Odd semester (I, III, V) it was observed that performance of Z, AA and 14AB batches is quite encouraging. It was noticed by the examination committee that the performance of some students was very poor because of the absence due to participation in many NCC and NSS camps. It was decided to send the students only for minimum camps required and also their academic performance should be considered while selecting the students for camps. The members suggested that principal should discuss with NCC and NSS officers to have common policy regarding camps. The members also suggested having other alternatives to NCC and NSS to meet the requirements of the increased strength of the college. Dr. P. Bhushanavathi from the department of Chemistry was nominated as assistant controller of examinations in place of Mrs. A. Sita Devi in the examination cell.

In even semester (II, IV, VI) the examination committee members reviewed the performance of students in various subjects and found it to be satisfactory in majority of the subjects, while the performance in some papers needs improvement. The members recommended remedial classes and other suitable practices to enhance the performance of the students. Members advised to take tutorials in practical classes for organic chemistry I paper. The members recommended that faculty in charge of NCC and NSS should submit the proposed list of cadets/volunteers for any camp to the controller of examinations well in advance for verification. The selected list of participants shall be put-up on the notice board only after the approval of the principal.

Final Result of 2014-15 passed out 'Z' Batch (2012-2015)

Examination reforms implemented:

1. Greater flexibility in continuous assessment & Innovative accessory assessment methods provided opportunity to test the various skills of the student rather than conventional testing
2. Awarding extra credits to special achievers in NCC, NSS, Sports and national level events made them to feel unique when compared to others.
3. Initiative of holding the Instant exam in April for students who fail in not more than two papers over six semesters is to facilitate the progression of students to Higher Education courses and placement in companies with less inconvenience.
4. The College strictly adheres to the declared examination schedules. This facilitated to declare results in time and also the progression of students to Higher Education courses and

placement in companies with less inconvenience.

5. The average time taken by the College for declaring the examination results is two to three weeks, to ensure that the students do not miss any opportunity in their professional career and higher studies.

6. Two Senior Faculty members are designated as Observers/ Squad to monitor the conduct of the exams each day to facilitate smooth conduct of examinations and also to avoid malpractice.

7. Transparency in evaluation (students verify their Mid semester answer scripts). Provision for Revaluation of End semester answer scripts on students request provides an opportunity to students to express their grievances regarding evaluation.

8. Apart from the regular examinations, special supplementary of V semester papers for final year students are conducted immediately after declaration of the results in January helps the students to clear their backlogs without losing a year.
