*For a given group of student's only one dept. (coordinating/organising) shall provide information to K to avoid duplication of information

I. I. Departmental Best Practice (if any): Provide a hundred word narrative on any one of the departmental best practices(other than extension and club activities)

Name of the Dept.	Name of the Best Practice	Description of the Practice:
English	Peer Teaching	Peer teaching is a teaching practice for students who are capable enough to co-ordinate among their peers and motivate them to learn better through teaching and explaining a given subject. The class is divided into four to five groups with five members in each group. The group chooses one among them as a teacher for them. The Peer teachers reinforce their own learning by facilitating learning in others. Students feel more comfortable to learn better when they interact with their peers in the groups. Each peer teacher follows their own strategies in the course of teaching and makes sure that their peers have understood the topic through clarifying questions and making them write in points so that they remember the topic. This practice was successful with Second Year EEP students who have sincerely used the two periods per week which was allotted for Peer teaching.
Sanskrit	Sanskrit Science Exhibition conducted by Sanskrit dept. On Geetha Jayanthi Celebrations, highlighted the rich cultural heritage associated with our great Nation India. Statistics	Projects on Statistical Data Collection and Analysis	In the sixth semester all the students choose individual 150 marks projects from the list provided by the dept. They conduct the study, use SSPS tool for analysis and submit the project report along with hard copy to the department
Physics	Teach While You Learn	An innovative method of teaching and learning “Teach While You Learn” is introduced for II and III B.Sc. students. Few meritorious students will be selected and trained on a last topic of the respective semester to enable them to teach their peers more efficiently. The students who teach will prepare and clarify their doubts in advance from staff. As the topic is based on the knowledge of the previous units it helps them to teach better. Students who teach will be able to handle the entire topic irrespective of the sub topics given. For better understanding of the lectures given by their classmates, rest of the them (who are teaching) will raise questions
Chemistry	Green practices and procedures	In the laboratory students perform analysis at semi micro level and minimise wastage of chemicals. Alternative green procedures are used for synthesis and analysis. Compounds synthesised in one semester are used in other semesters for derivatisation.

Computer Science	“Guest Lectures, Seminar & Workshops	<p>“Guest Lectures, Seminar & Workshops</p> <p>As part of academic development, the department arranges guest lectures and seminars throughout the year on topics of core subjects, Career oriented lectures and recent technologies periodically. Through the association, the students are encouraged to attend workshops organized by other reputed institutions.</p> <p>Competitions</p> <p>Students get a chance to showcase their skills, analyze and evaluate the outcomes. It encourages students to adopt innovative techniques and develop their ideas and skills for time management and also gives confidence to attend competitive exams.</p> <p>Animations and Presentations:</p> <p>To explain the difficult concepts like Memory managements and Process scheduling in Operating systems Presentations are shown, construction of trees in data structure animations are used by the faculty. Students understand what they see. Moreover animations create interest on the respective subjects and make the students excel in them. For example while teaching sorting techniques in Data Structures simple Flash animations are used. This helps students to comprehend the process beyond any doubt would do better to understand concept behind. Power point presentations are used to explain critical components which may take much time to draw on the board. The presentations are prepared in such a way that the total content of the chapter is covered in the slides along with afore-mentioned diagrams and is shared with the students which so that they can use them as reference.</p> <p>Demonstration of Projects/Programs:</p> <p>While teaching subjects like C Programming, Java Programming and web technologies projects are demonstrated in the classroom. The objective of demonstrating these projects are to provide a live experience to the students how an application works. This method also acts as a motivation to the students to take up challenging tasks as projects. Demonstrating the syntax and runtime errors that might occur while executing the project will help students to get a comprehensive idea of developing a project.</p> <p>Projects</p> <p>The best way to master a subject is by doing projects. Through a project the students not only get a deeper understanding of the subject but also gain hands-on practical experience. By doing a project, the students will</p> <ul style="list-style-type: none"> --Understand their subject better --Get practical experience --Have a chance to showcase their skills

Students and faculty members may contribute any articles or pictures related to advancements or wonders or issues related to plant science, Environmental science to the wall journal so that they will be displayed on it for everybody to read or observe. This helps students to realise recent developments in the subject of Botany and upgrade their knowledge in the subject. The students may present information from the regular newspapers, magazines or small coloured displays prepared by them on various nascent topics in plant science. This also improves the creative abilities of the student.</p>
Zoology	Short Term Training (Hands On Training) On Postharvest Technology Of Fishes At NIFPHATT(National Institute Of Fisheries Post Harvest, Technology& Training.	<p>Best practice of the department of zoology is the Short term training at National institute of fisheries post-harvest technology and training. The students need sound theoretical and most importantly a practical knowledge is necessary. This training provides hands on training in all aspects of post-harvest technology.It emphasizes the importance of hygienic handling in processing fish and fishery products,HACCP concepts, in plant training for efficient handling and preservation of fish and fishery products, canning of sea food and preparation of value added fishery products.Experts from the institute handled theory classes and a fully –fledged demonstration cum hands on experience. They were taught right from point of catch to export. The trainees had an opportunity to familiarize themselves with different processing activities like freezing, canning, smoking, quality control. They were also trained for testing microbiological analysis.During this programme trainees were exposed to hygienic preparation of several value added products like fish pickle, fish curry, fish cutlets, fish wafers, fish cutlets, fish papad, fish fillet, minced meat etc.The trainees also visited institutes like CIFT and CMFRI to learn about the hatcheries, culture of artemia etc.</p>
Biotechnology & Biochemistry	Summer internships,certificate course MLT	<p>Department of biotechnology and biochemistry co-ordinals conducted summer internship to the students during summer vacation department of biotechnology and biochemistry co-ordinately conducted summer internships project to students during their summer vacation .the main theme of this internship to develop the skill/hand on experience on various instruments like (PCR,HPLC,gas chromatography,ion exchange.... Etc.), case studies,</p>

		microbial analysis of foods and many more with this internship the students will acquire an exposed to various industries,hospitals,brewing industries.They were enhanced with the report writing skill on their project work.

B. A FUSION

The office bearers of 2018-2019 strongly believe in influencing the students in not only fun activities but also with actual activities which bring out a proper output for an individual at large.

We believe in quality and not quantity.

We believe in standard and not substantially entertaining the students just to reach our goals.

We put our Wings before us.

In addition, it can only happen when we have understanding staff Advisors and we are blessed in that area.
